Cíee

ELEMENT MARKETS

Company: Element Markets

Position: Generalist Analyst Internship

JOB DESCRIPTION

- » Support senior management in business strategy, analytics, and presentation preparation.
- » Track legislation and regulations in carbon, renewable energy, and emissions markets.
- » Help teams formulate business development, investment and go-to-market strategies for credit trading and project development.
- » Perform carbon and renewable market research and build project finance models, as needed.
- » Develop PowerPoint presentations to support sales, marketing, and origination efforts.

REQUIREMENTS

- » Interest in renewable energy, power markets, and carbon markets.
- » Undergraduate education in economics, engineering, finance, environmental sciences, or other energy-related field preferred.
- » Coursework in business, U.S. politics, and/or economics a plus.
- » Strong analytical and problem-solving skills.
- » Detail-oriented.
- » Excellent oral and written communications skills.
- » Strong Excel, PowerPoint, and other Microsoft Office skills are a must.
- » Team player that thrives in a fast changing environment.
- » Resourceful self-starter who has demonstrated abilities to work with limited supervision.
- » Unquestionable integrity and credibility.
